Point Reyes National Seashore - Cypress Tunnel

Dear valued clients,

We understand the importance of trees in adding value and beauty to your landscape. However, these natural wonders are also susceptible to external forces such as windstorms and extreme weather events, similar to what San Francisco and its neighboring areas recently experienced.

To safeguard your trees from potential damage, it is crucial to take proactive steps towards ensuring their long-term health. This involves [regular maintenance](#) and inspection for potential hazards such as disease or pest infestations, as well as proper pruning and fertilization. Seeking the advice of an arborist is also highly recommended, especially if you have any questions or concerns about the health and stability of your trees. Taking good care of your trees not only safeguards your investment but also ensures that they remain a beautiful and valuable part of your landscape for years to come.

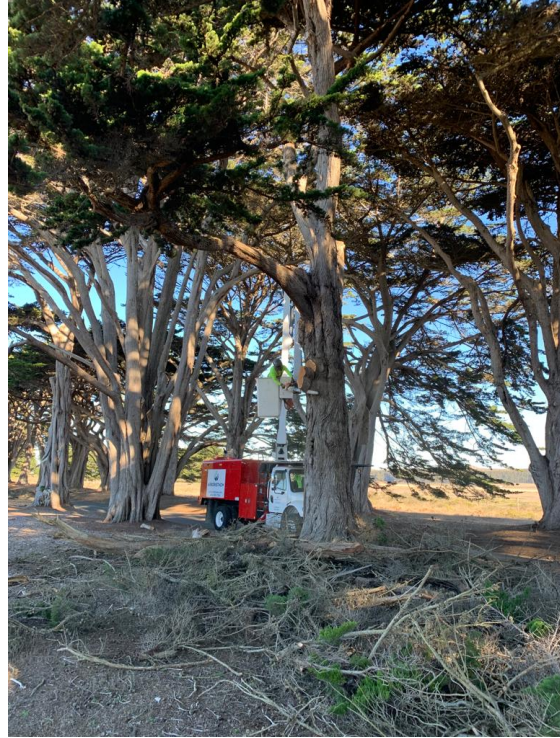

At Arborist Now, we understand the impact that weather conditions can have on your trees. Our team of professional and knowledgeable estimators is always ready to assist you in identifying and addressing any remaining storm damage or potential safety hazards. Trust us to provide the peace of mind you need to keep your landscape healthy and thriving.

Don't wait until it's too late. Give us a [call today](#) and let us help you protect your trees!

Project Highlights

Point Reyes National Seashore - Cypress Tunnel

Safety pruning and deadwood removal to preserve this historic and popular tourist destination. It was a month long project. Monterey Cypress trees were planted circa 1912.

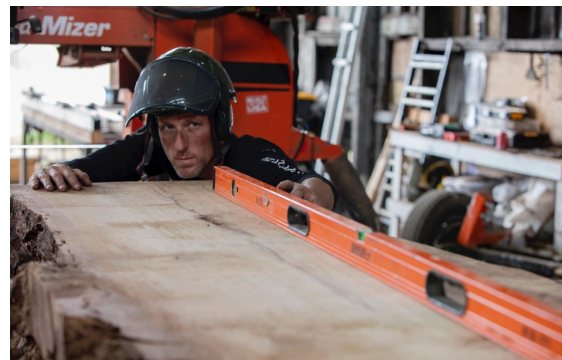

As the Storms Continue

Arbor Upcycle recognizes that fallen trees can hold sentimental value for individuals, and aims to provide a meaningful solution for preserving these memories. Our custom milling services cater to those who wish to retain a piece of nostalgia, offering a guided process to ensure a smooth experience. While bidding farewell to a beloved tree can be difficult, Arbor Upcycle allows individuals the opportunity to salvage a part of it and transform it into something special.

★★★★★ 16 hours ago **NEW**

It has been a pleasure working with Josh Johns, who prepared the estimate for our work and coordinated with a downhill neighbor to make sure everything went smoothly. And, Matt, a very experienced arborist, and his crew came. They were simply extraordinary: quick, efficient, doing an amazing job removing some trees and planting replacements, pruning a street tree and then leaving the entire area immaculate. I enthusiastically recommend Arborist Now.
